

Trains Loaded With Veterans

All trains passing through this city destined for Richmond yesterday were crowded with the gray-coated, and in many cases feeble Confederate veterans, en route to the general reunion of the United Confederate Veterans in the long beleaguered capital of the Confederacy. Incidentally, the rail station was thronged at almost all hours yesterday with veterans and the ladies accompanying them, while a few of the Sons of Veterans were also numbered with the Richmond-bound travelers.

Besides the regular trains, a special train from the far South brought in an almost solid train-load of those destined for the reunion, and when the regular Richmond train was awaiting the leaving hour it developed that it was insufficient to contain those waiting for it. While here the railway officials added two coaches to the regular train, attaching them in rear of the combination parlor-buffer car. Even these extra cars were nearly filled when the train left Danville, and as many boarded it at almost all points on the line, it was probably crowded before reaching the capital and the delays incident to heavy travel doubtless delayed the arrival.

Among all the veterans were their gray uniforms and most of them broad gray hats of the soldiers of the '60s, while a great many were decorated with the bronze Crosses of Honor bestowed by the Daughters of the Confederacy. Not a few wore badges and souvenirs of other reunions and all were noticeably stimulated by their enthusiasm in the prospect of meeting old comrades. Many alas, were lame, more were feeble and frail-looking and a few bore the marks of old wounds and scars in the cause of their States and of the Confederacy. In some cases ladies or younger men accompanied the gray-clad old men, and it was a pathetic sight to see so many so feeble undertake such a trying and long trip. The intermittent drizzle and showers of rain boded discomfort for many, unless the appeals of the Richmond press impel many to open their homes to shelter these pilgrims revisiting the home to many of them almost hallowed.

Danville sent a few, but this city and county were represented by probably a dozen and by several members of the local camp of Sons of Veterans. With a prospect of continuance of the rainy and uncertain weather today, the outlook for the comfort of those who made the journey is brighter. Among those who went down were Captain Harry Wooding, mayor of this city; Captain W. P. Robinson, B. V. Fretwell and other veterans and Harry Wooding, Jr., and Judge E. W. Brown of the Sons.

PRIZE WINNERS TO BE ANNOUNCED

The animal feature page which appeared in The Bee, Friday, June 9, and The Register, Sunday, June 11, carrying the advertisements of nine leading business firms of the city, resulted in more than 500 different colored specimens being submitted in the animal coloring contest. These came from all sections of the county and make a very creditable showing for the younger school children's artistic ability. It has been no easy matter to pick the winner, but the advertising department hopes to give the complete list in tomorrow's Register and Bee.

—Little Miss Nellie Ferguson, who was operated upon Sunday for appendicitis, is reported as having stood the operation well and as doing nicely yesterday.

TO THE CITIZENS OF DANVILLE:

I respectfully announce myself a candidate for re-election to the office of Superintendent of the Water, Gas and Electric Departments of the City of Danville, subject to the Democratic primary to be held August 1, 1922.

I started with these Departments as Secretary and Treasurer in 1899; in 1898 upon the recommendation of the late Capt. C. A. Ballou, (then Engineer and Superintendent) I was elected by the City Council Assistant Superintendent. In 1903, at the death of Captain Ballou, I was chosen Superintendent, and by successive City Councils from that date until 1914 I was re-elected by unanimous vote. In 1914, 1916, 1918 and 1920, I have been re-elected by the people at popular election without opposition.

During this period of 22 years no charge has been made against me as a citizen and none against my administration of the properties entrusted to my supervision.

Since I have been Superintendent, the City Pump House and Filter Plant, the City Gas House and the City Electric Light and Power Station have all been planned and erected. During the period of my administration, our patronage has grown from perhaps 1,500 customers to a total of more than 12,000. Our receipts have increased from less than \$50,000.00 a year to more than \$500,000.00 a year. Whereas these Departments formerly produced receipts less than the disbursements, they now turn into the general treasury of the City, under normal conditions, from \$75,000.00 to \$100,000.00 in excess of the disbursement. When the City Council placed me in financial charge of the City's Departments the property value, exclusive of any franchises, was \$250,000.00. Since that time and while the City Council and the people of Danville have seen fit to continue me in charge of these Departments, these property values have increased \$1,000,000.00, so that the fair value of the property owned by the City at this time is not less than \$1,250,000.00. It is a matter of pride to me as a citizen of Danville that whereas the citizens of Greensboro, High Point, Salisbury, Winston-Salem, Durham, Raleigh and other North Carolina cities pay \$1.20 a thousand cubic feet for gas, the gas consumers of Danville pay only \$1.29. This means that during the past year the gas takers in Danville paid for the gas they used \$91,000.00 less than they would have been charged for the same quantity and quality of gas in any of the cities above mentioned. A like saving in water and electric light and power will be seen by comparing the rates in cities similarly situated with Danville, through out the entire South.

The records of the City Council will show that as Superintendent of the Gas Department I have always, in response to their requests to me for recommendations, advised against their raising the price of gas, and I shall in the future make to the Council a recommendation for a reduction in the price of gas just as soon as it can be done without cutting the wages of our faithful employees. It should be remembered that Danville was one of the very few cities in the country which did not raise its rates on water or electricity in the abnormal cost period, during and subsequent to the war. At the present time our rates on water, gas and electricity are lower than any city in the United States similarly located.

It would seem that a business of this magnitude and requiring trained and experienced supervision would more likely procure satisfactory results under an official who had devoted 22 years to its practical management than could be hoped for under the management of one who has had no experience whatever in production and distribution of water, gas and electricity.

I will appreciate the good will and the influence of the Citizens of Danville in giving me a vote of confidence upon my record, though it will be impossible to see each voter personally in so short a time. If re-elected I pledge a faithful discharge of my duty and to stand in the future as I have endeavored to stand in the past for the best interests of the City of Danville, and its citizens.

Respectfully submitted,

FRANK TALBOTT.

MRS. STANDFIELD EXPIRES SUDDENLY OF HEART ATTACK

Mrs. Mollie A. Standfield, widow of D. C. Standfield, died suddenly at her home, 432 North Ridge street last night about 7:30 o'clock from heart failure. Her death was very unexpected. She had worked about the house as usual all day and was talking freely with her daughters when she suddenly toppled out of the chair onto the floor. When picked up, Mrs. Standfield was dead.

Mrs. Standfield, who was 63 years of age, had been a resident of this city for 27 years, having come here from Person county, N. C. She is survived by three sons, B. H. and J. S. Standfield, of Greensboro, and W. L. Standfield of this city, and three daughters, Misses Maggie and Arlie Standfield and Mrs. Pearl Parrott. She also leaves two sisters, Miss Migot Childress, Person county and Mrs. Ella Bowles, Person county and three brothers, Charlie Horner, Roxboro, and "Sammy" and John Horner, Person county.

Although it was known that Mrs. Standfield was subject to heart attacks, she was in her usual health yesterday. After doing her housework and eating supper she and several of her daughters were talking together. Suddenly Mrs. Standfield fell from the chair dead.

The funeral arrangements had not been made last night and will be announced later.

DR. MORRISON WEDS

Willard Morrison has just returned to the city from New York, where he went to be present at the marriage of his brother, Dr. Edgar H. Morrison, to Mrs. Jackie Daniel Thrash, of Tarboro, N. C., the marriage taking place on Saturday last at the church of the Transfiguration, Fifth avenue and Twenty-Ninth street, N. Y., and better known as the "Little Church Around the Corner." The ceremony was performed by the pastor, the Rev. Dwight Cameron, in the presence of a few friends. Dr. Morrison is a well known former Danville young man, and the son of Dr. and Mrs. J. K. Morrison, of West Main street, this city, and now a resident of the city of Virginia Beach, Va. Mrs. Morrison is well known throughout Virginia and the Carolinas, having been for some time past president of the North Carolina Division of the United Confederate Veterans, and at present a member of the State Democratic Executive Committee of North Carolina.

After a short wedding trip in the north Dr. and Mrs. Morrison will be at home at Virginia Beach.

HENSLEY-DRAPER

Saturday afternoon at 4 p. m. at the home of Rev. M. W. Royall, on Lee street, Mrs. Harry Lee Draper became the bride of Everett Hensley. The only attendants were Mr. Shumate and Miss White. The young couple are popular young people of Martinsville. They with their friends, motored to Danville and immediately after the ceremony returned to Martinsville, where they will make their home. The groom is a young mechanic of that place and is widely known among the business people of that section.

—Miss Sue Averett, Miss Maggie Cook and Miss Julia Thornton left yesterday for East Radford to attend the summer normal.

—Mrs. J. A. Burch of Chatham who is a patient at the General Hospital is showing improvement. —Mrs. O. S. Parsell, of Huntington, West Va., is visiting her brother, W. A. Burch at the Clark Terrace.

—Hewell and Ernest Spooner left Sunday for Wilmington and Wrightsville Beach, N. C., where they will spend the summer.

This Takes "Love" Out of Tennis

A girl rigged up like this could hardly expect a love match in a "love" set of tennis, but the mask allows her to wear sun glasses with safety and the forehead band keeps perspiration out of the eyes.

PREACHER MUST TELL WHAT HE KNOWS TO COURT

CHARLOTTE, N. C., June 19.—

Judge J. Lawrence Jones, of the city recorder's court today issued a subpoena for the Rev. J. A. Sharp, in an affidavit proceeding instituted by the city authorities, citing the minister to appear before the court on Wednesday morning and reveal the information which he based his alleged assertion in a sermon Sunday night to the effect that the local police department is derelict in the prosecution of certain classes of law violators.

In his Sunday night sermon on "law and order," Mr. Sharp is reported to have charged that the police authorities allow prominent persons known to be engaged in illegal liquor traffic on a large scale go unpunished while buying themselves running down persons of more humble station in life for offenses of a minor character. The minister was quoted as having said that he had a pile of affidavits "as high as my Bible" to back up his assertions.

Judge Jones said today the community could not afford to have any citizen "running loose with wild statements about moral conditions without making some move to find out if such statements were correct." The Rev. Mr. Sharp, who is pastor of Calvary Methodist church, recently was presented with a 325 contribution for church work by a committee representing the local Ku Klux Klan, the committee entering the church in full regalia just following the Sunday night sermon. A newspaper announcing that Mr. Sharp was scheduled to make an address for the Ku Klux Klan in that city in the near future.

—Miss Elsie Gregory, of Swansboro, Va., is visiting her sister, Mrs. E. H. Wood, North Main street. —Little Misses Charlotte and Christine Wood are visiting their grandmother at Swansboro, Va. —Mrs. W. R. Hill and son Russell, have gone to Stuart to spend a few weeks.

FORMER HOTEL MAN OF DANVILLE TO GO TO CHICAGO

H. T. Mims, formerly manager of the Leeland Hotel, of this city, more recently with the Robert E. Lee Hotel, Winston-Salem, N. C., will leave the North Carolina city in the near future and take over the management of the Churchill Apartments Hotel, Chicago. The Churchill is now under construction by the H. L. Stevens company, who built the Robert E. Lee. It is located on State and Goethe streets.

Mr. Mims will leave Winston-Salem on July 1 and will visit Baltimore and other points East for a vacation. He will go to Chicago about August 1 and make plans for the opening of the Churchill.

HUMANE SOCIETY TO LOSE DOG POUND

ST. LOUIS, Mo., June 19.—The St. Louis Humane Society will be ousted from control of the city dog pound as a result of its opposition to the sale by the city of dogs to medical schools under the so-called vivisection ordinance, according to Mayor Kiel. The Mayor's declaration followed the granting of a temporary restraining order by Circuit Judge Hall, enjoining city officials from selling an impounded dog belonging to Dr. J. G. Gerhart, a member of the Humane Society, of the Washington University Medical school.

Mayor Kiel said he would not attribute the filing of this injunction suit to the Humane Society, but that the organization had opposed the vivisection ordinance in his efforts to carry out the ordinance, which constituted sufficient grounds for removing the society from direction of the work.

The ordinance opposed by the Humane Society provides for the sale of impounded dogs to medical schools "for scientific purposes" at 75 cents each.

At the inception of vivisection legislation, the Mayor said, "for sentimental reasons I was inclined to oppose turning the dogs over to the medical schools, but an ordinance having been introduced in the Board of Aldermen, the medical profession of St. Louis continued me as well as the Board of Aldermen that such disposition of these animals was necessary in the cause of humanity."

WOMAN IS TO REMAIN FIVE YEARS IN ALASKA

NEW YORK, June 19.—Miss Augusta Muller, of Brockton, N. Y., leaves today for Point Barrow, Alaska, where she will spend five years in work among the Eskimos, under the direction of the Presbyterian Board.

After her journey across the continent, Miss Muller will take a pack-trail from Seattle, Wash., to Nome, Alaska. As Nome is a dangerous place, she will be accompanied by a pack-trail guard. The trip will take 15 days, will be made on the United States revenue cutter, Bear.

Commenting on the prospects of her trip, Miss Muller said, "I assume there will be hardships, I have been so warned by the authorities under whose jurisdiction I am placing myself. They are careful. I should not go into this new work without a complete understanding of its requirements, but that understanding has only added to my determination. I am going out there without the slightest hesitation or fear."

Knights Tempar To Celebrate the 100th Anniversary

A great deal of interest is being taken in Danville among members of Dove Commandery, No. 7, Knights Templar, in the celebration with imposing ceremony in Richmond, Va., on October 26 and 27 of the centennial of the establishment of the Virginia Grand commandery.

Members of Dove commandery, which, besides its age, will rank in numbers and personnel with almost any in Virginia, are making plans this far ahead to attend the celebration, which will be marked by competitive drills and brilliant pageants, impressive ceremonies and a series of delightful entertainments. Low railway rates for the round trip will be provided by special arrangement, and it is expected that several thousand knights templar will be gathered in the capital city for the two days.

On Thursday, October 26, the Grand commandery will convene in Masonic temple for a business session, and the ladies accompanying the knights will be given an automobile trip throughout the city. At 1:30 p. m. luncheon will be served to the ladies at the new Scottish Rite temple, while the members of the Grand commandery are having their luncheon at the Masonic temple.

At 3 p. m. a brilliant street pageant of uniformed knights will be one of the spectacular features of the two days' program. It is expected that a large proportion of the uniformed knights in the Grand jurisdiction will be in line. The first day's program will conclude with an elaborate entertainment at the city auditorium for all sir knights and ladies accompanying them.

On Friday a special entertainment will be given the visiting Knights Templar and ladies at various theatres in the city. At the same hour the Grand commandery will reconvene for a business session at the Scottish Rite temple and for election and public installation of the newly elected Grand officers. At 1 p. m. members of the Grand commandery will have luncheon at the Scottish Rite temple.

At 3 p. m. a competitive drill for prizes, open to drill teams from all the commanderies in Virginia, other than the two in Richmond, will be a novel and interesting feature. The session and entertainment features will terminate with a grand reception, refreshments and dance at the Richmond armory.

Dove commandery proposes to send down a drill team of twenty-four men, who will be drilled and trained by Eminent H. W. Smith, an officer in the A. E. F., assisted by other soldier members. Besides this feature of peculiar interest to Danville templars, a special appeal will be made to as many as possible of the more than 300 members of this commandery to attend this greatest Grand commandery ever held in the Virginia jurisdiction. Right Eminent Sir

PRES. REVIEWS 5,000 MARINES

WASHINGTON, June 19.—President Harding late today reviewed five thousand marines composing the Fifth and Sixth Regiments, on their way through the capital to Gettysburg, Pa., for their annual field maneuvers where on July 3 and 4 they will re-enact the famous Civil War battle.

From the South portico of the White House the president and Mrs. Harding together with invited guests from Washington's official life, took the salute of the sun tanned soldiers of the sea. It was the first time since the civil war, marine officials said, that troops had been reviewed by a president within the White House grounds.

—Miss Elsie Gregory, of Swansboro, Va., is visiting her sister, Mrs. E. H. Wood, North Main street. —Little Misses Charlotte and Christine Wood are visiting their grandmother at Swansboro, Va. —Mrs. W. R. Hill and son Russell, have gone to Stuart to spend a few weeks.

HALE IS NAMED IN PRIMARIES

PORTLAND, Maine, June 19.—Senator Frederick Hale and Governor Percival P. Baxter were renominated by the Republicans by large pluralities in today's primary. Returns from 356 precincts out of 635 in the State, including more than half of the giving Senator: Baxter, 20,021; Hale, 19,871. For Governor: Baxter, 20,021; Deering, 9,250; Higgins, 5,824.

—Willie Brown, of Charlotte, N. C., spent the week-end with his parents, Mr. and Mrs. J. F. Brown, North Main street.

Slayer Vanishes From Sing Sing; Siren Cals Big Posse To Hunt

NEW YORK, June 20.—For the first time in a year, Sing Sing's siren aroused the countryside last night at 8:30 o'clock, proclaiming the disappearance of Charles Greer, alias John Kelly, twenty-three, serving a 20-year sentence for a murder in Westchester county.

"We don't know whether he has escaped or whether he is hidden about the grounds," said a prison official last night. "He was here between 6 and 7, the dinner hour, but when we made a check for 8:30 he was gone."

Greer was in a cell block that consists of six floors. The prisoners are not locked in their cells on Sunday nights until 10 o'clock. How he could have escaped from there is mystifying. One theory, that he had climbed through a trap door in the roof, was discounted as almost a physical impossibility.

The siren blew for fifteen minutes. Prison guards, led by Warden Lewis, State troopers in automobiles and a detachment of the Ossining police, joined in the search. Special agents were assigned to the country estates of Frank A. Vanderlip, William and John D. Rockefeller and James Speyer. These estates are heavily wooded. Greer was committed in 1914. He still had twelve years to serve.

PULL TAKES JOBS FROM DISABLED

BY HARRY B. HUNT.

WASHINGTON, June 20.—Disabled veterans, "rehabilitated" by special courses of training under the Veterans Bureau and placed in government departments, are being ousted to make room for political appointees, according to complaints that will be lodged by the Disabled American Veterans of the world war.

Also, it will be charged, veterans fitted for special government work are paid much less than political appointees doing identical work.

The protest of the Disabled Veterans will center around the shipping board, which is loosely bound by civil service.

Positions with the shipping board are in greatest demand in satisfying political patronage. There are no harassing examinations.

The Veterans Bureau has assigned students to the shipping board for training as auditors. During training they receive no pay from the board, but draw training pay from the bureau.

When training is completed, they are rated as "rehabilitated" and transferred to the board's payroll.

Most of the rehabilitated men have been put on at from \$1200 to \$1500

a year. Auditors working alongside these men, doing the same work, but who won their appointment through political channels, draw from \$1800 to \$2500.

On the heels of a recent drive by Republican congressmen and senators to find jobs for insistent constituents, auditors recruited from the ranks of the rehabilitated veterans began to be dropped from their jobs.

The explanation given was that the auditing force was being reduced. However, the desks vacated by the ex-service men were almost immediately occupied by new appointees, named outside of civil service, at salaries from \$5 to 100 per cent higher than had been paid the Veterans Bureau graduates.

At the same time these disabled soldiers, declared "rehabilitated" by bureau officials, were being dropped from government payrolls to make room for political appointments.

The Veterans Bureau was setting up an employment office which was appealing to employers throughout the country to give preference in jobs to the rehabilitated disabled soldier.

Yet the first man "rehabilitated" as an auditor by the Veterans Bureau was the first man dropped by the shipping board.

Marconi's Visit Interests Radio Experts In U. S.

WASHINGTON, June 20.—With the arrival in this country of Guglielmo Marconi, the attention of radio engineers will be turned temporarily toward recent developments in the field of spark or damped wave radio communication. Marconi during the early part of his wireless research work developed apparatus for long wave transmission. Developments in recent years have been largely toward continuous wave transmission, particularly of low wave lengths, or in other words more familiar to laymen, radio telephony.

The inventor has arrived in New York to investigate recent developments in radio science in this country, and to confer with the Federal Bureau of Investigation and other leading radio engineers. He will address the Institute of Radio Engineers in New York.

Marconi has made a significant recent recording communication with the planet Mars. He has communicated with the planet as far as present. Although it is true waves of unusual length were received in several occasions, and it might be assumed that the time from the earth to the planet is about 20 minutes, there has been the belief that these radio waves came from Mars more than from some other planet, the latter is stated.

MOTHER GIVES LIFE TO SAVE DAUGHTER

NEWPORT, Ark., June 18.—Mrs. Sarah Rowson, who gave her life to save that of her little daughter, was buried here yesterday.

Mrs. Rowson was killed by a train just as she pushed her 12-year-old daughter out of the way. Mrs. Rowson and the girl had been working in a cotton field. As they were returning home, an automobile crossed the railroad track just in front of the two. Blinded by the dust neither saw the train until it was upon them. Mrs. Rowson pushed her daughter across the track down an embankment but was caught by the fender of the engine and badly mangled. The girl rolled down the embankment and was bruised only slightly.

TEACHER TEACHES TO FORGET

MADemoiselle FRANCOIS CARMINE, TEACHER OF CHICAGO'S RICH, AND ONE OF HER MILLIONAIRE PUPILS.

BY ROY GIBBONS

CHICAGO, June 20.—The teacher who instructs your "Pill" or "Sis" in the school around the corner is trying to make them remember—remember facts about reading and writing and spelling and numbers. But Mademoiselle Francois Carmine, Chicago's most unusual teacher, who conducts a private school in the exclusive Gold Coast section, is trying to make her pupils forget—forget one thing—that they're rich!

"Rich children are not to be en-

vied," says Mademoiselle Carmine, "because often their lives are longer and sadder. For myself, I wouldn't be the child of a rich family for anything in the world."

Mademoiselle Carmine's school is held largely in the open and instruction consists of competitive games, with prizes of nickel bean bags and penny suckers.

"And I've seen millionaire pupils laugh with delight at the receipt of a bean bag when they'd be bored by expensive toys," Mademoiselle Carmine says.

EUROPE GLOWS WITH JOY OF ROBBING U. S. TOURISTS

THE HAGUE, June 19.—Americans are flooding the old world in unprecedented numbers. They're everywhere—and the tide shows no sign of ebbing.

First-hand knowledge of the situation in England, France, Italy and Holland, supplemented by travel agencies' reports, shows that American tourists of all classes are to be encountered everywhere.

You see them at the Roman Forum stumbling along over the wreckage looking for the spot where Julius Caesar made his campaign speeches; they peer at Paris from the Eiffel Tower, so they can learn the layout of the city and find their way about without asking questions; they stroke the lions at the foot of Nelson's monument in Trafalgar Square and suggest the term "Circus" should have been applied here instead of hanging it on the Piccadilly center.

Their experiences are many and varied, but there is one tale—a tale of woe—that makes itself heard above all the others. It is a universal complaint. It is a vehement protest against the high cost of European travel.

Someone back home told these people, "You can travel in Europe for almost nothing now—the exchange is so low." And they all believed it, until they arrived. If there are any Americans left in the United States now, it may not be too late to warn them that travel in Europe is just as expensive as in any other part of the world—in many respects, more so. If they expect to take a cheap fling at England and the Continent and have enough left over to do Palm Beach next winter, they're doomed to sad disappointment.

Exchange is low, yes, but in most of the tourist centers, prices have been accommodatorily hiked to make up for this discrepancy. The hotels and the restaurants and the cab drivers and the porters have taken care of this admirably.

In fact the change is frequently high for a number of reasons. The European has always figured the

American tourist is fair game—he was over here to be picked and he should not be disappointed.

But the European post-war reaction has raised the slogan, "Soak the Americans" to a popular point for exceeding its previous significance.

In England prices have more nearly retained a fair standard, but on the continent hotel men and tradesmen have told the writer more than once that Europe's intense war suffering, financially and otherwise, with America's attendant gain in wealth makes it only fair and proper that Americans should pay now for Europe's war costs.

In many of the continental shops it is notorious that there are two scales of prices—one for the natives and one for the tourists. Another thing that hits the American is the tax on his baggage. Your receipted hotel bill in Italy looks like a page from a stamp collector's album.

The American pays; he wants to be a "good sport." But things hell say about Europe when he gets back home. Your help in the cause of European international relations.

Man Killed By Train Identified

LYNCHBURG, June 20.—Representatives of a railway union came to Lynchburg from Crewe yesterday morning and positively identified the body of the man found dead a week ago beside Fishing creek as that of A. E. Linford, who formerly worked as a machinist in the Norfolk and Western shops at Crewe. W. S. Hughes and W. P. Rhoades made the identification. Linford had been absent from his home since June 1, when he left Crewe with the intention of going to Richmond or Petersburg in search of work.

Mr. Hughes and Mr. Rhoades came to Lynchburg after hearing a description of the clothing worn by the dead man. Thomas Powell, father of one of the boys who found the body, has been interesting himself in the case and it is thought that he was instrumental in bringing about the identification.

Mr. Linford was said by the Crewe men to have come from Columbia, S. C., about five years ago. He is survived by a wife and two children.

Linford came to Lynchburg from Crewe on the afternoon of June 1 and there was a man with him, according to Calvin Beverley, a colored taxi-driver who described him as "tall and slender." Linford and the other man, Beverley said, came out of the union station and went up into his taxi. Linford asked Beverley to drive them out Rivermont avenue to Princeton circle, where he expected to get looking for the night.

The tall man, Beverley said, insisted, however, that they be driven down Main street where they would be able to find a boarding house more quickly. Beverley said he drove the two men to one house in the 1300 block of Main street, where the tall man got out and went into the neighborly house. Beverley said that was a bad house and insisted that they drive on down the street to another place, which he knew about. The taxi driver carried the two men to the neighborly house, where they got out and went out only a few blocks from the point Linford's body was found 11 days later.

WATERPOWER CONGRESS

(By The Associated Press.)
ASHVILLE, June 20.—Arrangements have progressed rapidly for the inauguration of the annual congress of the American Waterpower Congress, which will be held here June 25-27. The congress is the latest in a series of similar gatherings, which have been held in London, Paris, and other cities. It is a special occasion for the waterpower engineers and architects of the world, and will be held in the new waterpower congress building, which is being constructed here.

Held For Killing Man 10 Years Ago

Will Mays, Alias Charles F. Drake, Former Resident of Danville, Denies Responsibility for Raleigh Police.

GREENSBORO, N. C., June 20.—Nine or ten years ago Will Mays, a white man, became entangled in a dispute over a game of cards in Raleigh. He shot one of the players and in the effort to escape shot and killed a member of the Raleigh police force, Chief Wadkins.

Yesterday morning a man, said to be the same Will Mays, was arrested in the Pomona mills and now is held in the county jail. Officers from Raleigh are expected today to take him to Raleigh.

The arrested man says his name is Charles F. Drake and under that name he has been living since he arrived in Pomona in November, 1921. He denies that he is Mays and says, furthermore, that he knows Mays and has been acquainted with him for many years.

On the other hand, Deputy Sheriff Boatman Clark positively identified Drake as Mays and other persons who know Mays say that the police have the right man. When Assistant Chief of Police Current, Deputy Sheriff O. W. Duke, and Policeman Huffine and Skenes went to Pomona yesterday morning, they asked persons who knew Mays to point out the right man. Without hesitation they picked Drake from a room where picked other men were working and later Deputy Sheriff Clark, after a thorough examination, also identified him.

Local officers have meager information about the shooting. Chief Crutched communicated with the Raleigh police yesterday about the arrested man and learned that Mays, shot a policeman named Cleve or Cleo Wadkins or Watkins. For nine years since that time, the Raleigh police said, Mays has never been heard of. Drake himself says the man shot was not a policeman and in that statement Stacy Gamble, now in the county jail waiting trial for killing M. C. Spry on May 29, corroborates him.

Drake or Mays talked freely in the jail yesterday afternoon. He is 40 years old and has been a weaver in cotton mill work for many years. He said he knew Mays well and admitted that there was some resemblance between the two.

Speaking quietly and with no indication of alarm, he denied that he was the right man and said he could bring forward many persons to prove that he is Charles Drake. "I know about Mays killing a man in Raleigh because I read it in the papers," he said. "At that time I was in Danville, worked in a cotton mill there, and I know lots of people there. I believe every man on the Danville police force can identify me."

"I've got my marriage certificate with my right name on it and other papers," he continued. "My wife is visiting in Virginia now. She can identify me, and there are others. I have never been in Raleigh but one

time and that was to stop over about two hours between trains."

Gamble, whose cell is near Drake's or Mays', came forward with the statement that he was familiar with both men. Drake and Mays, and that the arrested man was Drake, not Mays. Neither Gamble nor Drake know, they said, where Mays is now.

Chief of Police Bell, when questioned today, remembered the murder of the Charlotte policeman, and said that officers came to Danville on two different occasions, looking for the murderer. Mr. Bell remembered Drake vaguely, but he was not associated by the police in any way with the commission of a crime, he said.

White House Outlay Exceeds Last Year's

WASHINGTON, June 19.—President Harding is finding it hard to equal the last year's mark for economy at the White House. Expenditures there for the current fiscal year will exceed those of the fiscal year of 1920-21.

The preliminary statement of expenditures for the eleven months, July 1 to May 31, 1922, issued today by the treasury, shows a total outlay of \$201,996,650 for the executive branch. The total for the full 12 months last year was \$210,056, but during no month this year has the cost of running the White House office exceeded \$15,000. Expenditures during May topped those of April by \$3,407.49. It cost \$19,863.72 to run the White House last month.

For the first eleven months of the fiscal year 1920-21, the expenditure of the executive proper was \$118,673.79.

The largest gold mine in Brazil is nearly 6600 feet deep. The greatest known depth of the ocean is 40,236 feet.

French Profit Twice On German Coal

WASHINGTON, June 19.—French profit is vividly portrayed in a cable just received by the department of commerce from J. D. Butler, assistant commercial attaché at Paris.

Germany, under the provisions of the treaty of Versailles, has delivered to France approximately 25,000,000 metric tons of coal. For this 1,489,228,000 francs was deducted from the war indemnity due France. Mr. Butler charges that this coal has in turn been sold to consumers for 2,633,263,000 francs, giving France 1,144,035,000 francs more than Germany can deduct from her war debt.

In addition to the coal delivered under the Versailles treaty, Germany has sent to France 4,371,700 metric tons of coal under the protocol of Luxembourg.

Cost of Living Hits Upward Trail

WASHINGTON, June 19.—The cost of living has hit the up grade again. Wholesale prices for every article entering into the life of the consumer in the industries showing signs of revival are going up, department of labor reports issued today show.

The increases range from 1 to 11 per cent between April and May and now those of as much as 13 per cent over last May. Only chemicals and drugs except.

The aggregate increase was 3 1/2 per cent, with corn prices leading. Between these two extremes were food, house furnishings, clothing, metal and metal products and building materials, all with substantial increases in price.

GIRL HAD PAINFUL TIMES

Mothers—Read This Letter and Statement Which Follows

Portland, Indiana.—"I was troubled with irregularity and constipation and would often have to be taken because of pains. One Sunday my aunt was visiting us and she said her girls took Lydia E. Pinkham's Vegetable Compound and got well, so mother said she guessed she would let me try it. It is doing me good and I praise it highly. You are welcome to use this letter as a testimonial."

STELLA NEWTON, R. R. 8, Portland, Indiana.

Mothers—You should carefully guard your daughter's health. Advise her of the danger which comes from standing around with cold or wet feet, from lifting heavy articles, or overworking. Do not let her overstudy.

If she complains of headache, pains in back or lower limbs, or if you notice a slowness of thought, nervousness or irritability on the part of your daughter give her careful attention.

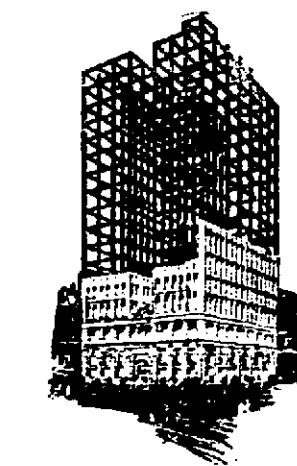

Lydia E. Pinkham's Vegetable Compound is an excellent medicine for your daughter to take, as it is especially adapted to relieve just such symptoms. Remember it contains nothing that can injure and can be taken in safety.

Cuticura Toilet Trio
Satisfies every want of the most critical in cleansing, purifying and beautifying the skin and complexion. Nothing purer, sweeter or more effective for every-day toilet purposes.

Sample Pack Free by Mail. Address: "Cuticura Laboratories, Dept. 303, Malden 16, Mass." Sold everywhere. Soap, 25¢; Ointment 25¢ and 50¢. Cuticura Soap shares without measure.

Outer Beauty—Inner Strength

Beneath the beauty of a skyscraper stands a skeleton of steel—hidden, yet holding the great structure together for all time.

Under the weatherproof surface of Flex-a-Tile Giant Shingles lies a base of genuine Richardson felt—hidden, yet giving tensile strength without which surface beauty cannot last.

The best obtainable materials, and all the skill of more than 50 years' experience are built into every piece of Richardson felt. Scientific manufacture is primarily responsible for the long life of Flex-a-Tile Roofing.

This superfine felt is first thoroughly saturated with natural asphalt; then asphalt-coated on both sides. That is why Giant Shingle roofs offer perfect resistance to heat, cold or moisture from above or beneath.

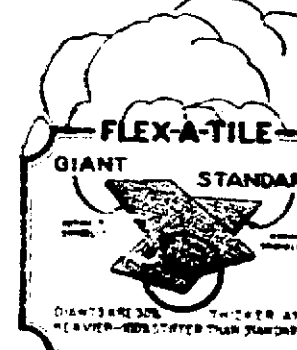

FLEX-A-TILE HOUSE TOPS

Outer beauty is added to this inner strength by a layer of genuine slate from our quarries at Flex-a-Tile, Georgia. The rich, natural green of this special slate blends beautifully with any surroundings and any type or architecture. It cannot be imitated, because nature produced it and age has mellowed it.

Flex-a-Tile Giants give to a roof, whether new or old, an appearance of strength and permanence that adds to the beauty of the entire house. And they are better adapted for laying right over the old roof covering than any other type of asphalt shingles.

Telephone for further information.

B. S. MOTLEY & CO.
Cor. Bridge and Main

Flex-a-Tile Giant Shingles are 50% heavier and 100% stiffer than standard asphalt shingles, and cost less than a dime more. The extra thickness adds to the beauty of the roof as well as to its long life. Color is natural green, and it is the very best Flex-a-Tile House Tops are a product of The Richardson Company.

SYDNEY, N. S. W., June 20.—Arrangements have progressed rapidly for the inauguration of the annual congress of the American Waterpower Congress, which will be held here June 25-27. The congress is the latest in a series of similar gatherings, which have been held in London, Paris, and other cities. It is a special occasion for the waterpower engineers and architects of the world, and will be held in the new waterpower congress building, which is being constructed here.

Aerial Transport Firm Is Granted Virginia Charter

RICHMOND, Va., June 20.—Among the charters granted by the state corporation commission last week was that of the Aerial Transport Corporation, of Richmond. Maximum of \$20,000,000 preferred stock and 600,000 shares of common stock. The corporation is granted permission to operate aeroplanes for the transportation of freight, passengers and mail.

It could not be learned today whether the transportation concern would operate in Virginia and as far as is known the project is backed by Pittsburgh business men Edmund H. Preston, Richmond attorney, who is named as temporary president of the corporation said this afternoon he knew nothing about the proposed route of the air line or whether Richmond would be one of the stations. Other temporary officers are Whiting C. Faulkner, of Richmond, secretary and Irvin C. Gray, of Richmond treasurer.

An amendment was granted to the charter of the Richmond Trust and Building Corporation decreasing the par value of its preferred stock from \$100 to \$20.

DEATH RATE OF BABIES REDUCED

NEW YORK, June 19.—Reduction of more than 14 per cent in the death rate of babies in the United States during 1921 was reported by the American Child Welfare association today for 1921 in a tabulation covering 574 cities of more than 10,000 population. The rate dropped from 92 per thousand in 1920 to 79 in 1921, which the report said means 11,787 lives were saved in the 73 cities as compared with 1920 of approximately 20,000 for the same country.

On the whole, the death rate was lowest in the large cities. Los Angeles, N. J. had the lowest rate in 1921, 39 and 43, respectively.

The report called attention to the many attributed causes of high infant mortality, such as bad living conditions, bad sanitation, bad milk, poverty, and bad hygiene. Ignorance is most to be blamed, and points out that the large cities are doing most in the way of educational prevention.

MRS. H. C. EVANS DIES

CHATTANOOGA, Tenn., June 19.—Mrs. Adelaide Evans, widow of J. C. Evans, first assistant postmaster general in 1893 and member of the fifty-first congress, died here this afternoon.

WIDOWER CONGRATULATED

"Since my wife's death, five years ago I have suffered greatly from stomach and liver trouble and gas attacks. I lost over 50 lbs., and at times was as pale as a ghost. Six doctors could not help me. Six doses of May's Wonderful Remedy, have entirely cured me. I have regained my weight and even one is again smiling at me. How well I look! It is simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allows the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. J. C. McCall's Drug Store, Trent Drug Co. and druggists everywhere."—ADV.

Oranges Shine Like Golden Suns, But Old Valencia Is Disconsolate

VALENCIA, Spain, June 20.—A situation of the Valencia orange growers as the result of the continued warfare between France and Spain and the very old custom of the growers to share the fruit with the French, has become desperate and they who are most concerned are the growers of Valencia. The growers of Valencia are disconsolate and are looking for a way out of their predicament. The growers of Valencia are disconsolate and are looking for a way out of their predicament. The growers of Valencia are disconsolate and are looking for a way out of their predicament.

Ford's Offer Is Assailed In House

Muscle Shoals Project Is Subject of Another Report Presented by Republicans.

WASHINGTON, June 20.—Henry Ford's offer for the Muscle Shoals project was attacked today in a report to the House prepared by Representative Keams, Republican of Alabama. The report declared disapproval of the offer and announced that the speakers are determined to tell the people the real facts about Muscle Shoals and so-called Ford offer.

HUSBAND ARRESTED FOR POISONING HIS WIFE

MEMPHIS, Tenn., June 19.—Samuel Gerstel, a merchant, was placed in jail tonight on a warrant charging him with the murder of his wife who died here today from poison which a coroner's jury held Gerstel forced down her throat.

Gerstel declared that he found his wife suffering from poison and that she said she had taken it. The couple were said to have recently effected a reconciliation after having been separated.

"PHONEY" CALLS FOR AID CHARGED

MONTGOMERY, Ala., June 19.—Comer Rowell, a young white man of Elba, Ala., is in jail in Chicago, charged with flooding Alabama people through "phony" distress telegrams. The information that he is under arrest is contained in a telegram received today by Chief of Police Taylor from Chief of Detectives Hughes of Chicago.

Telephone requests for money have been received by several persons here and in other parts of Alabama from a man who generally is not known by his real name. He is said to be a citizen of the state.

These telephone calls have been reported from local rail to communication from cities in away parts of the country. He asked that money be immediately telegraphed.

The first of the series of "phony" operations reported in Montgomery occurred about seven weeks ago according to information available.

He is also wanted by the authorities in Atlanta, Ga.

RUMORS ARE GROUNDED

LONDON, June 19.—The Russian revolution has been grounded on a public opinion in London Sunday afternoon that the rumors of the overthrow of a government coming to London in the near future are absolutely groundless.

Berliner Helicopter Held Best Developed

WASHINGTON, June 19.—The Berliner helicopter, which has been making a series of test flights at College Park, Md., a few miles from Washington during the past two weeks, is the best machine of this type yet developed.

This is the opinion of scientific experts who have watched the Berliner helicopter in action. The Berliner, the inventor, and his son Henry A. Berliner, frankly admit that the helicopter has definite limitations, but they contend it is only a question of time that perhaps a short time, before the problem of safe descent will be worked out satisfactorily.

The latest tests were made last Friday before experts of the Bureau of Naval Aeronautics who are preparing a detailed technical report on the performance of the helicopter.

The Berliner helicopter is straight into the air from the ground and is held motionless a few feet from the ground and is capable of flying about with its tail slightly lifted and its nose tilted downward. No noise has been heard from the machine. The Berliner machine is said to be capable of rising to any desired altitude and engage in horizontal flight.

TREATIES ARE APPROVED

OTTAWA, Ontario, June 19.—The House of Commons unanimously approved today the treaties passed at the Washington armament conference.

FLAMES DESTROY BUILDING

RICHMOND, Va., June 19.—Flames ate tonight swept the interior of the three-story brick building occupied by the L. S. Lee Company here, destroying a stock of cotton bolls.

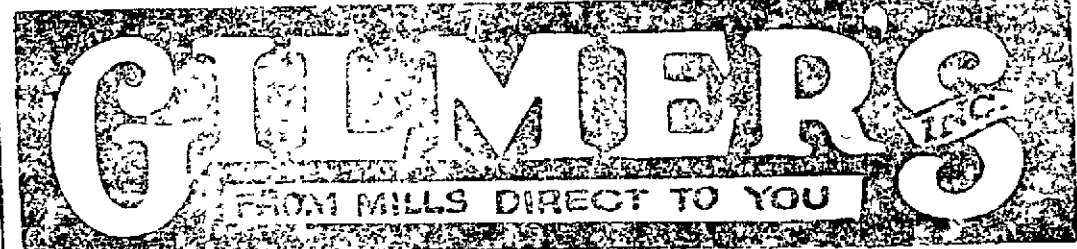

Defense Rests In Murder Case

(By The Associated Press.) CHARLESTOWN, W. Va., June 19.—The defense today rested in the case of Rev. J. E. Wilburn, charged with killing a deputy sheriff during labor disturbances last August. Governor Morgan was immediately called as first rebuttal witness by the prosecution.

Rupture Expert Here

Secley, Famous in This Specialty (Called to Danville). F. H. Secley, of Chicago and Philadelphia, the noted truss expert, will personally be at the Burton hotel, and will remain in Danville Friday only. June 23. Mr. Secley says: "The Spinaline Shield will not only retain any case of rupture perfectly, but contracts the opening in 10 days of the average case. Being a vast advancement over all former methods, exemplifying instantaneous effect, immediately appreciable and withstanding any strain or position, no matter the size or location. Large of difficult cases, or incisional rupture (following operations) specially suited. This instrument received the only award in England and in Spain producing results without surgery, injections, medical treatments or prescriptions. Mr. Secley has documents from the United States Government, Washington, D. C., for inspection. He will be glad to demonstrate without charge or let them if desired. Business demands prevent stopping at other places in this section. P. S.—Every statement in this notice has been verified before the Federal and State Courts.—F. H. Secley, Home Office 117 N. Dearborn St. Chicago.

NEWSPAPER ARCH

HUDSON DENIED ANOTHER TRIAL

ATLANTA, Ga., June 19.—Glenn M. Hudson, Daugherty county farmer sentenced to be hanged on conviction of the murder of his two stepsons, was denied a new trial by the Georgia supreme court today.

The children, Robert and Isaiah Temple, nine and four years old, were the sons of Mrs. Hudson by her first husband, who was killed in France. They were found dead on the porch of Hudson's farm house near Albany, Ga., last July and the state claimed he shot them because he did not want to support them.

Mrs. Hudson who was tried and acquitted of the murders, accused her husband of killing the boys and he in turn asserted he believed she or a negro must have slain them.

The Hudsons came to Albany from Alabama.

INDUSTRIAL GAINS FOR LOS ANGELES

LOS ANGELES, June 19.—The manufacturing record of this city will show a gain of \$12,263,756 in 1921 over the figures of 1920, according to a statement given to a representative of The Christian Science Monitor today by the Chamber of Commerce.

The total for last year is shown conservatively to have been \$800,926,541. This, according to Chamber of Commerce figures, places Los Angeles in the column of 10 leading manufacturing cities in the United States.

Among the industries which showed most marked gains were: Petroleum products, a jump from \$2,605,276 in 1920 to \$103,726,659 in 1921; iron and steel, \$4,340,856 in 1920 to \$87,432,878 last year; automobiles and parts from \$33,440,856 in 1920 to \$52,146,015 in 1921; lumber planing mills, from \$20,773,656 to \$29,358,675, and light and power from \$15,377,000 to \$20,137,087.

BURNS KNOCKED OUT

LONDON, June 1.—(Associated Press)—Ted "Kid" Lewis, English middleweight champion, knocked out Frankie Burns, Australian middleweight champion, in the eleventh round of their bout here tonight.

Is Backache Making You Miserable

Are you dull, tired and aching—both with a bad back? Do you lack ambition; suffer headaches and dizziness—feel all worn out? Likely your kidneys are to blame. Lameness, sharp stabbing pains, backache, and annoying urinary disorders are all symptoms of weakened kidneys. Don't wait for more serious trouble. Get back your health and keep it! Use Doan's Kidney Pills. Home folks tell their merit. Ask your neighbor!

Here's a Danville Case.

A. J. Tanner, grocer, 358 Union St., Danville, Va., was troubled with a heavy, aching down pain in the small of his back and no matter which way he was moved, it thought a knife was being jabbed into his kidneys. The action of my kidneys was irregular. Doan's Kidney Pills rid me of all the misery.

WORST FLOOD IN HISTORY OF RIO GRANDE VALLEY

SAN ANTONIO, Texas, June 19.—Possibility of the worst flood in the history of the lower Rio Grande Valley, is seen in an unconfirmed report that the San Juan river in Mexico is on a third rampage and that its flood water may enter the Rio Grande at the same time that the flood waters which passed Eagle City Sunday night reach Rio Grande City.

If the report is true and the water of the San Juan joins that of the crest of the Rio Grande flood, fearful weather observers here believe it will produce a flood unparalleled in the history of the valley.

The flood in the Rio Grande which carried away the wagon and the railroad bridges at Eagle Pass Sunday night has passed that town and high water is beginning to be recorded at Laredo.

As far as can be learned there has been no loss of life in the Rio Grande flood, unless it is on the Mexican side.

LEVEE AT MISSION BREAKS

HOUSTON, Texas, June 19.—Reports reaching here from Rio Grande City stated that the levee at Mission broke this afternoon, flooding many acres of the lower Rio Grande Valley's best farming lands. No loss of life was reported and no estimate of the damage to crops was given.

LIQUOR LAWS ARE CHALLENGED, SAYS WHEELER

Atlanta, Ga., June 19.—"Whenever the right of a self-governing people to enforce their own laws is challenged, there the conflict must be without end," declared Wayne B. Wheeler, general counsel of the Anti-Saloon League, declared tonight in an address before the regional conference of the League being held here.

Mr. Wheeler denounced those who he said were working against the law and in the course of his remarks named United States Senators Shields, of Tennessee, and Watson, of Georgia, as enemies of the national prohibition law. He urged that all candidates in primaries be forced to declare themselves on the liquor issue.

ALIEN COUNTRIES AWAIT ADMISION

THE HAGUE, June 19.—In the World Court at present, the most important business is the discussion over one question of the declaration made last session by the Council of the League of Nations as to the conditions under which the court will be opened to those states not annexed to the Covenant.

When this declaration has been approved by the court, Germany, Austria, and Russia may be parties to disputes before the court. Telegraphic notifications have been sent out to the governments and international organizations informing them that they may be heard in the pending labor cases. Other points at present under discussion concern the rank and titles of the judges themselves, whether or not the expenses of the parties appearing before the court should be reimbursed, the method of communication between the court and the several governments, as well as such questions as the seal and the budget.

Seven new forms of animal life have been found in Mammoth Cave, Ky., during the past few years.

Ward Goes to Jail Smiling

Walter S. Ward, millionaire (left), headed for jail at White Plains, N. Y., after he pleaded not guilty to a murder indictment. Though he may be jailed three months without bail before his case is called, Ward is smiling.

FRANK HARRISON CHARGED WITH DOPING RECORD

WASHINGTON, June 19.—A resolution censuring Commissioner Frank A. Harrison, of Lincoln, Nebraska, for "falsifying the records of the commission" was adopted unanimously by members of the American commission to the Brazilian Centennial Exhibition at a meeting today. Later members of the commission called upon President Harding at the White House, submitted the resolution and requested that he remove Mr. Harrison as a member of the commission.

No announcement was made from the White House as to what action the president might take and members of the commission, by issuing a brief formal statement, declined to discuss the case or the character of the charges in any way. Member-president when the vote was taken were said to be D. C. Collier, of Santa Fe, New Mexico, commissioner general, and Mrs. Arthur L. L. Moore, New York City, W. G. Stevens, R. O. De Janero, John K. Kirby, of Houston, Texas, and George T. Mills, secretary of the commission.

HALE IN LEAD IN PRIMARY IN MAINE

PORTLAND, Maine, June 19.—Returns from 212 precincts out of 625 in the state gave for senator, Davies 1,533, Guernsey 3,877, Hale 10,454.

Senator Hale and Governor Baxter maintained a decided lead in the returns from 97 precincts out of 520 cities and towns, which gave for senator, Davies 430, Guernsey 1,638, Hale 3,860.

For governor, Baxter 4,157; Deering 1,693, Higgins 804.

TWO WOMEN ARE FOUND SHOT TO DEATH IN CAR

STATESBORO, Ga., June 19.—Mrs. M. B. Dixon, 38, and her daughter, Mrs. Elliott E. Dixon, 18, were found shot to death in an automobile near the younger woman's husband's home. The younger woman's husband, Chas. G. Dixon, 40, was arrested from whom she had been separated for several months, was arrested tonight and deputies placed him in an automobile and started towards Savannah to place him in jail for safekeeping.

The two women met Padric today at the railroad station at Chas. and started with him for their home at Dover in an automobile, officers said. Shortly after the machine returned to Chas. where gasoline was secured and another start was made. At dusk another automobile discovered the bodies of the two women in the machine near Chas. The car was placed so as to block the road and the switch key had been removed. Padric was arrested shortly afterwards near YSonia.

Padric said he planned a trip to Dover, with his wife and mother-in-law. He was driving their sedan his wife being seated at the side and his mother-in-law in the rear seat. On reaching the Ogeechee river bridge, Padric said his jealousy over his wife's alleged attentions to other men got the best of him. He stopped the car, pulled out his pistol and shot them both to death before they had a chance to move in their seats, he said.

Padric said that he thought first of throwing the bodies into the river, but reconsidered this and left them in the tonneau of the car. The bodies were discovered in a short while by some one passing, and the news was quickly carried to Dover.

PROHIBITION IN U. S. UPHELD BY SWISS INVESTIGATOR

WASHINGTON, June 19.—Robert Herold, director of the International Temperance Bureau of Lausanne, Switzerland, who is investigating progress of the Eighteenth Amendment in the United States and who conferred with R. A. Haines, federal commissioner, has made a preliminary report.

"I have been struck everywhere by the fact that the keenest observers have told me that prohibition has been a success from an economic point of view," he said. "I have sought exact information about prohibition in Boston, Providence, R. I., New York, Washington, Richmond, Atlanta, New Orleans, San Francisco, El Paso, Tucson, Los Angeles and San Antonio."

"Although a good deal of false propaganda and misinformation about prohibition has been spread in Europe, I must say that after personal investigation the general impression I have formed about it is good. While I find it hasn't been enforced efficiently in some centers, on the whole, the United States and America is a better country than it used to be before it outlawed the liquor."

"This is my sixth trip to America to investigate this subject, and my observation is that liquor sales have been cut down because of the United States Constitution was changed and they were legalized, the saloons would sure come back, too."

As a whole, I believe the Americans are wiser and braver than they were when they drank to excess in open saloons. Great good is coming to this country, due directly to prohibition of the liquor traffic, despite violations of the law."

METHODISTS READY FOR UNITED ATTACK OF LIQUOR INTERESTS

WINNIPEG, June 19.—Dr. I. Albert Moore, secretary of the social service department of the Methodist Church, which is in conference here, spoke warning of the united attack of the liquor interests on the Manitoba field.

Faced with this situation he said it was up to the Methodists to be true to the traditions of their faith, and lead the way in a courageous, united and determined attack on the encroaching forces.

Continuing Mr. Moore said that the liquor forces in the Province, the United States and America were uniting in an attempt to prove that prohibition has failed in Manitoba.

"Anti-temperance interests are concentrating their efforts now to defeat the province. The effect will be far reaching enough to destroy the morale of temperance workers all over the world."

ACTOR SOUGHT AS FRIEND OF DUNES VICTIM

CHICAGO, June 19.—Kenneth A. Anderson, a former vaudeville actor and "rolling stone" who disappeared from the home of his uncle, F. Segar, in Ravenswood, on May 5, holds the key to the identity of the man whose charred body was found Friday on a heresene soaked pyre in the Indiana sand dunes near Waverly beach.

Search for Anderson, whose last work in Chicago was with the Yellow Cab company and the Citizens Trust and Savings bank, Garfield boulevard and Southside street, was instituted Tuesday by Coroner Herman O. Seipel of Porter county after the missing man's brother, Harold D. Anderson, 5406 Prairie avenue, had gone to Valparaiso and furnished the best leads which the authorities have had to work upon so far.

Although the charred remains were not exhumed for Anderson's inspection, he told Dr. Seipel, after a close scrutiny of the dead man's clothing, he was convinced the victim was not his missing brother. The shoes were a size and a half too small, he said, and his brother wore size 15 shirt and collar while those of the dead man were No. 16.

Other clues found among the victim's effects, coupled with such information as Anderson supplied, convinced Coroner Seipel that the man was a close friend of Kenneth Anderson, and that the latter, when found, will be able to clear up the mystery.

Among the effects found scattered on the dunes was a cheap reel suitcase in which was posted a close-up bearing the numeral "301." Harold Anderson identified this as a group which his father, H. A. Anderson, brought back from New York a year ago. The father died shortly after his son's return to Chicago, and the suitcase became the property of Kenneth Anderson.

"My brother has roamed all over the country since he was 15 years old," Anderson said. "He never learned anything very long. When he was about 16 he went on the small time vaudeville stage and worked with various song and dance teams. Once he played big time with an act owned by Mme. Cronas, and showed at the Majestic theater when in Chicago."

An old Majestic program was among the papers found.

"After he left the stage he worked for a time as a Yellow Cab chauffeur, but was fired because of an accident in which he figured. Until last January he worked for the Citizens bank and lived at that time somewhere on Garfield boulevard near the bank. The last time my mother and sister met Kenneth on state street he said he was living with my uncle, Mr. Segar, but he left them on May."

"I am positive from the clothing that the dead man is not my brother. It is my belief that he loaned the suitcase to a friend to go camping and that the papers found were left in the suitcase at the time Anderson, who is employed by the Middle Western Utilities Stock corporation in the Edison building, described Kenneth as being 19 years old and weighing 140 pounds. He said Kenneth had told his mother that he intended to go to work on the lake boats as soon as navigation was opened."

Scribbled on one of the pieces of paper found was the name "Eickson" but Anderson was unable to say whether Kenneth had a friend by that name. In the suitcase was also scribbled the name "Jenkins" 55th street and Indiana avenue." On a slip of brown wrapping paper was scrawled such an I. O. U. as might be given in a poker or crap game. The name appears to be that of "C. Cornwell," "C. Cornett," or "C. Cornwell," and the address "284 Garfield boulevard."

Below the name is the notation "\$1.75." Anderson expressed the opinion this had been given by some friends while Kenneth lived "somewhere on Garfield boulevard" in the flat of a man named Jenkins.

Death came to the victim, Coroner Seipel has determined, from a bullet discharged from a high powered Winchester rifle, the charred, stockless barrel of which was found near the body.

"But I am not convinced it was a murder," Coroner Seipel said. "It may have been murder, an accident, or suicide. The bullet entered just below the chin and emerged through the back of the head."

cause of the position of the body was not able to determine the exact point of entrance, but there is no doubt as to the direction taken by the bullet. An empty shell was found in the firing chamber."

FORMER AMBASSADOR DIES

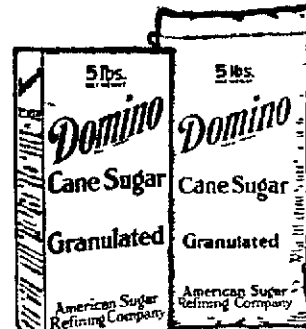

NEW YORK, June 19.—Frederick Courtland Penfield, former United States ambassador to Austria-Hungary, died tonight at his West Avenue home, following a short illness.

blackberry time

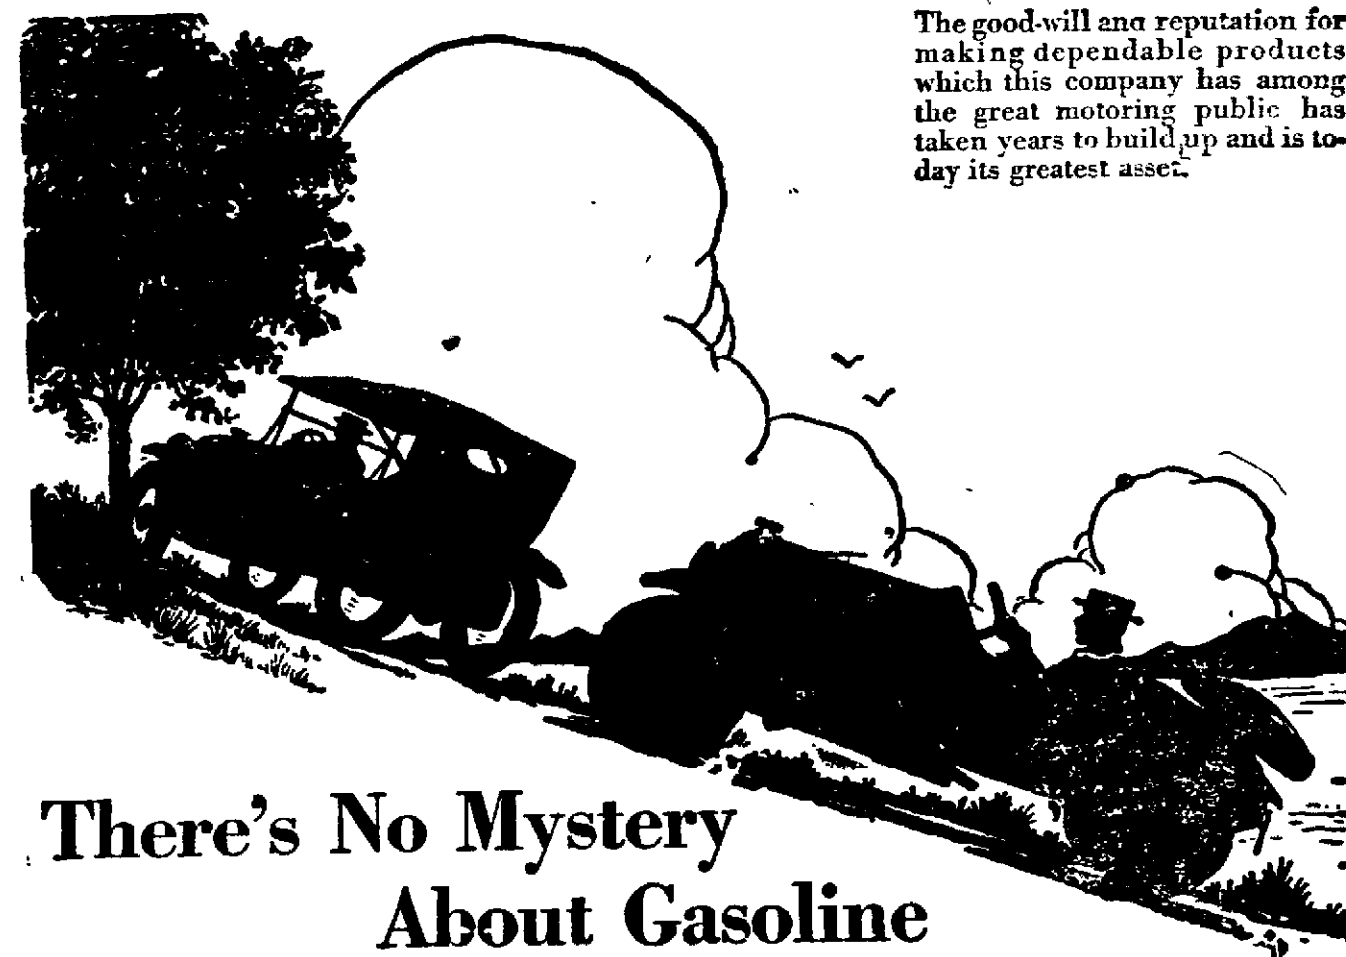

"Do up enough berries to last all year round. Preserves are economical and highly nutritive. Domino Granulated is the sugar to use—clean, accurately weighed and packed in convenient cartons and bags."

SAVE THE FRUIT CROP

American Sugar Refining Company
"Sweeten it with Domino"
Granulated, Tablet, Powdered, Confectioners, Brown, Golden Syrup, Cinnamon and Sugar, Sugar-Honey, Molasses

The good-will and reputation for making dependable products which this company has among the great motoring public has taken years to build up and is today its greatest asset.

There's No Mystery About Gasoline

If two refiners had the same equipment and access to the same supply of crude oil they could both make good gasoline IF they both had the same amount of skill. But the fact remains that there are wide variations in the gasoline sold today, just as there are good, bad and indifferent clothes, bakers' pies and automobile tires.

Your motor will run on most any gasoline. It has been demonstrated that a balanced fuel will run it better and more economically than gasoline that is haphazard.

"Standard" is carefully refined to give a balanced, well-rounded performance in your motor. It has light, intermediate and heavy constituents that always insure quick starting, full power and maximum mileage.

To get the best results from "Standard" Gasoline use Polarine Oil—a right grade for every car.

STANDARD OIL COMPANY (NEW JERSEY)

NOTICE—The A. F. & A. M. (colored) lodge No. 223, Stokesdale, Va. will give an entertainment at the Lovetown hall, June 24th. Everybody invited. 6-19B2t.

The friends of Frank Talbot, candidate for reelection to the office of Superintendent of Public Utilities have opened an office in the new building of the Southern Amusement Company, (second floor) Main street, where information can be furnished or received from Mrs. Anna W. Each day. Information and suggestions will be appreciated. Telephone No. 1836. 6-20B&R10t.

SHERIFF ASKED FOR ASSISTANCE—VALDOSTA, Ga., June 19.—The sheriff of Lowndes county has been asked for assistance in putting down disorders reported in Echols county yesterday and today, growing out of a clash between cattle owners and dipping inspectors.

The Smith-Carter dipping vat was dynamited in Broad daylight. It is reported, and a dipping inspector is said to have been severely whipped by anti-dippers.

When an attack was made on the Sewell vat last night armed guards are said to have opened fire. The raiders are said to have returned the fire, the clash continuing for several hours, the anti-cattle dippers finally retreating.

KEILLOGG IS LEADING IN G. O. P. PRIMARY

ST. PAUL, Minn., June 19.—First scattering returns on the United States senatorial contests in today's Minnesota primary showed Senator Frank B. Keillogg leading by a 2 to 1 margin over the Republican ticket and Miss Anna D. Olesen, having a slight advantage over her two opponents on the Democratic ballot. These returns were largely from Keillogg territory.

Poland Making Forward Strides

LONDON, June 20.—The general situation in Poland has improved considerably in the past six months, Austria's economic condition is still extremely serious, but Czechoslovakia has made a wonderful recovery. The above summarizes the observations of Walter Lyman Brown, director for Europe of the American Relief Administration, who has just returned to London from a trip through central Europe. He visited Prague, Warsaw and Vienna. In the latter two cities the A. R. A. will finish its child-feeding this month. The A. R. A. closed down in Czechoslovakia in the summer of 1921.

The chief problem in Poland from the A. R. A. point of view, Mr. Brown said, was the devastated region in the east, complicated by the refugees pouring over the eastern border from Russia. There is also considerable suffering in the big industrial centers, where the rehabilitation work is not yet complete. Legislation has been passed recently by which 400,000 children will be fed by the Polish government and communities until next October and 300,000 until the following June.

Mr. Brown found Austria still in a serious position. For that reason the A. R. A. offered to leave \$200,000 worth of food to help continue the work after its withdrawal. Legislation making it possible to perpetuate the child-feeding passed the Austrian parliament May 16.

In Czechoslovakia, from which the A. R. A. withdrew in the summer of last year, Mr. Brown said the problem is entirely different from that in the other countries. Czechoslovakia has made a wonderful recovery. There is plenty of food there. What is needed is education among the parents and the opening of clinics for children.

"What pleases us most in the arrangements for the continuation of our work," Mr. Brown concluded, "is the absolutely non-political basis on which they are being made. The responsibility is being shared equally by all sections of the nations, the central governments co-operating with the local communities. Thus through the generosity of the American people in a great emergency, we have been able to make a permanent contribution to the welfare of the coming generations in central Europe."

Beef Is Getting Back To Menu

CHICAGO, June 20.—The great American beefsteak and the succulent roast beef are on their way back to the menu of the ordinary citizen, according to a report made public today by the National Institute of Progressive Farming.

The reason is simple, according to Guy H. Hall, director of the institute. It is that with the deflation of the grain market it has again become profitable to market feed grains via the beef market.

Our survey of the beef situation, which has been on for a month, covered the four leading pure-breed cattle associations, namely, the Hereford, Aberdeen-Angus, Shorthorn and Gallova, the leading livestock markets and some 17,000 farm implement dealers," said Mr. Hall.

"The investigation," continued Mr. Hall, "shows a marked increase in the sale of bulls to farmers and range cattle growers. This means increased profits. All reports agree on that. Feeds were terribly depleted during the deflation period and there is still a shortage, but the movement back to normal is now in full swing. As production increases so will consumption, and the rehabilitation of all industry will be that much advanced."

"It is not an exaggeration to state that optimism has returned to the farmer. He sees a sure profit in this season's work and he is buying tractors and farm implements and using them. Our hog survey, recently made public, indicated that the beef survey confirms it and our sheep survey, now in progress, will clinch it I am sure."

"The survey indicates a profitable market for beef for at least eighteen months longer, and with honest rearing of meat, the American workman should have his beef on the table at least once a day, as of yore. It will not be the growers' fault if he cannot afford it. England has grown to greatness on beef; so has the United States. The return of the steak and the roast to the table is of international importance."

The Only One

Miss Maupia Ju is China's only woman flier. She learned the game from American fliers and will soon return to the United States to observe processes made in aeronautics.

Shaw Raps Movie Folk

LONDON, June 20.—George Bernard Shaw has been offered \$100,000 a year for five years by an American syndicate to produce two motion picture films each year. The author made this announcement himself at a dinner of the Society of Authors in London. Declaring that the cinema rights of a single story might be worth \$50,000, he urged young authors not to be too ready to give concessions to cinema producers or literary promoters, among whom, he said, there was unfortunately no abiding standard of honesty.

"A man who sits at a table or a chair charges no more than the cost of the article plus a reasonable percentage of profit," he said, "but nothing of the kind applies to the publishing, theatrical or cinema business. The truth is the whole thing is a gamble, and producers will make perhaps a few cases in 10 or 20 ventures, want to make that success pay for all failures."

KELLOGG STILL IN LEAD
ST. PAUL, Minn., June 19.—First scattering in the senatorial contest in today's state-wide primary showed Senator Frank B. Kellogg maintaining a lead in the Republican ticket and Mrs. Anna D. Olsen leading the Democratic contest. The returns were too meagre, however, to be considered representative.

German Firms Underbid Others

JERUSALEM, June 20.—Much of the material that is to be used in the work of developing the hydraulic power of the falls of the Jordan, near the Sea of Galilee, will be acquired from German firms. Their prices are said to be one-half of British houses and considerably below those of American bidders.

The plan includes the construction of a dam on the Jordan River at the point where it issues from the Sea of Galilee; a large storage reservoir; irrigation canals; and the installation of electric generating stations. American-Jewish organizations are said to be largely interested in the project.

The contract has been awarded to Pinhas Rutenberg, a Russian engineer by the British government. Mr. Rutenberg is now in the United States seeking financial support for the project. The work will involve an expenditure of \$10,000,000 and the employment of 5,000 men. The Russian contractor also will undertake to draw electric power from the Auda River to light the ancient city of Jaffa and the communities of Tel Aviv, Ramleh and Petach Tikvah. He is allowed two years in which to raise the capital and start operations.

There is no distilleries, breweries or saloons.

Co-operative Labor Banks Are Latest

CLEVELAND, O., June 20.—Five co-operative labor banks are being organized in the United States, and one was recently opened in Chicago, according to the Locomotive Engineers Journal. Another, the Brotherhood of Locomotive Engineers Co-operative National Bank, has been in existence a year and a half, and its reported resources are nearly \$15,000.

The Brotherhood of Locomotive Engineers' Banking Company has been organized at the Locomotive Engineers' headquarters in Chicago. It is capitalized at \$25,000 and has one of the oldest savings bank charters in northern Ohio. The

Brotherhood of Railway and Steamship clerks has instructed its grand officers to organize a bank with a probable capital of \$500,000. The executive board of the Order of Railroad Telegraphers has obtained a charter for a bank capitalized at \$100,000 plus \$100,000 surplus. Workers of Birmingham, Ala., are organizing there the Federated Bank and Trust Company, with a capital stock of \$500,000. Representatives of the four transportation brotherhoods in Minneapolis, Minn., have agreed for a charter for a national bank to be capitalized at \$200,000 by the four bodies.

The new Chicago bank is that of the Amalgamated Clothing Workers, capitalized at \$300,000.

BROADWAY TODAY
The last Presentation of
Mary Pickford
—IN—
Her greatest and most enchanting Film.
"Little Lord Fauntleroy."
A Story That Will Stir The Heart.
Who is there whose heart is not stirred by the Fauntleroy of this story of infinite appeal, by the very recollection of the gaily, grouchy earl; sweet, suffering "Dearest," faithful Mr. Hobbs, the groceryman the toiling applewoman and all the rest?
Who of the fathers and mothers of today cannot recall the sensational success of every stage presentation of Fauntleroy, and this pictorial of it preserves its wonderful human note to bring smiles and smiles from generations to come.

A COMPOSITE REVIEW
(Compiled from Eight Big New York Dailies)
Mary Pickford as "Little Lord Fauntleroy"—and also as "Dearest," his mother. Can you imagine it? You know Mary Pickford. You know the story. "Our Mary" has done a fine thing in this, her newest picture, all done with the hint of gaiety, and the tug of pathos about it—a sympathetic retelling of a story you've loved, and that yours, after you, will love. The romantic tale—with its pretentious castle, its quaint figures and its familiar characters has been literally translated. Each characteristic is clean cut, intelligent and throbbing with human interest. The settings are lavish in the extreme; the photography was superlative.
Special Musical by Broadway Orchestra
Time of shows: 1 p. m.; 3:10; 5:10; 7:10 and 9:10 p. m.
Afternoon Children, 10c; Adults 35c. Evening children, 17c; Adults, 44c.
